

CCSC Reentry Survey Results

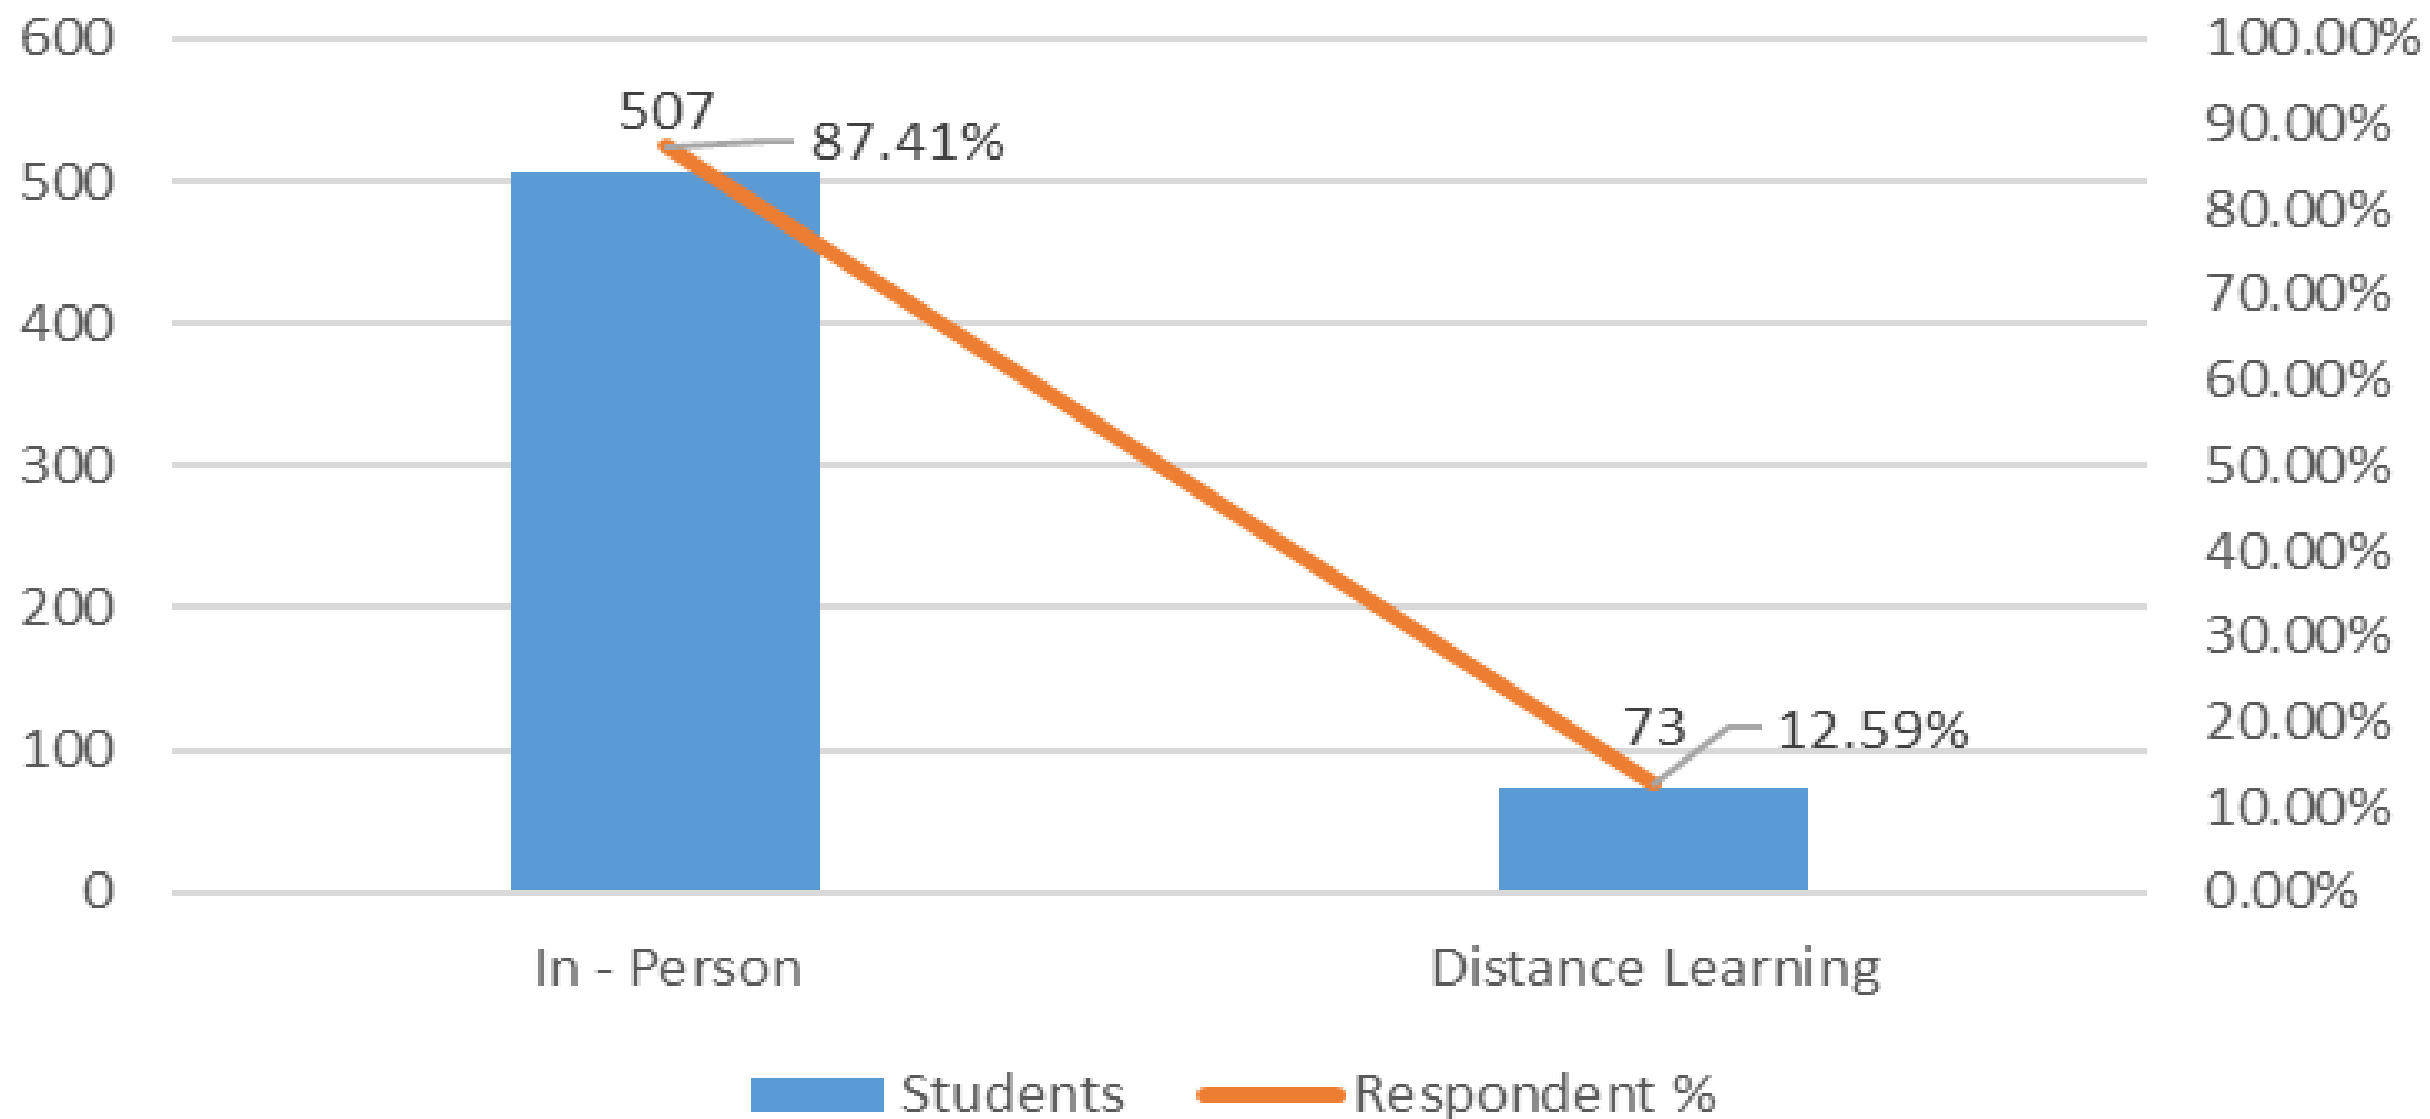

Instructional Preference

July 2020

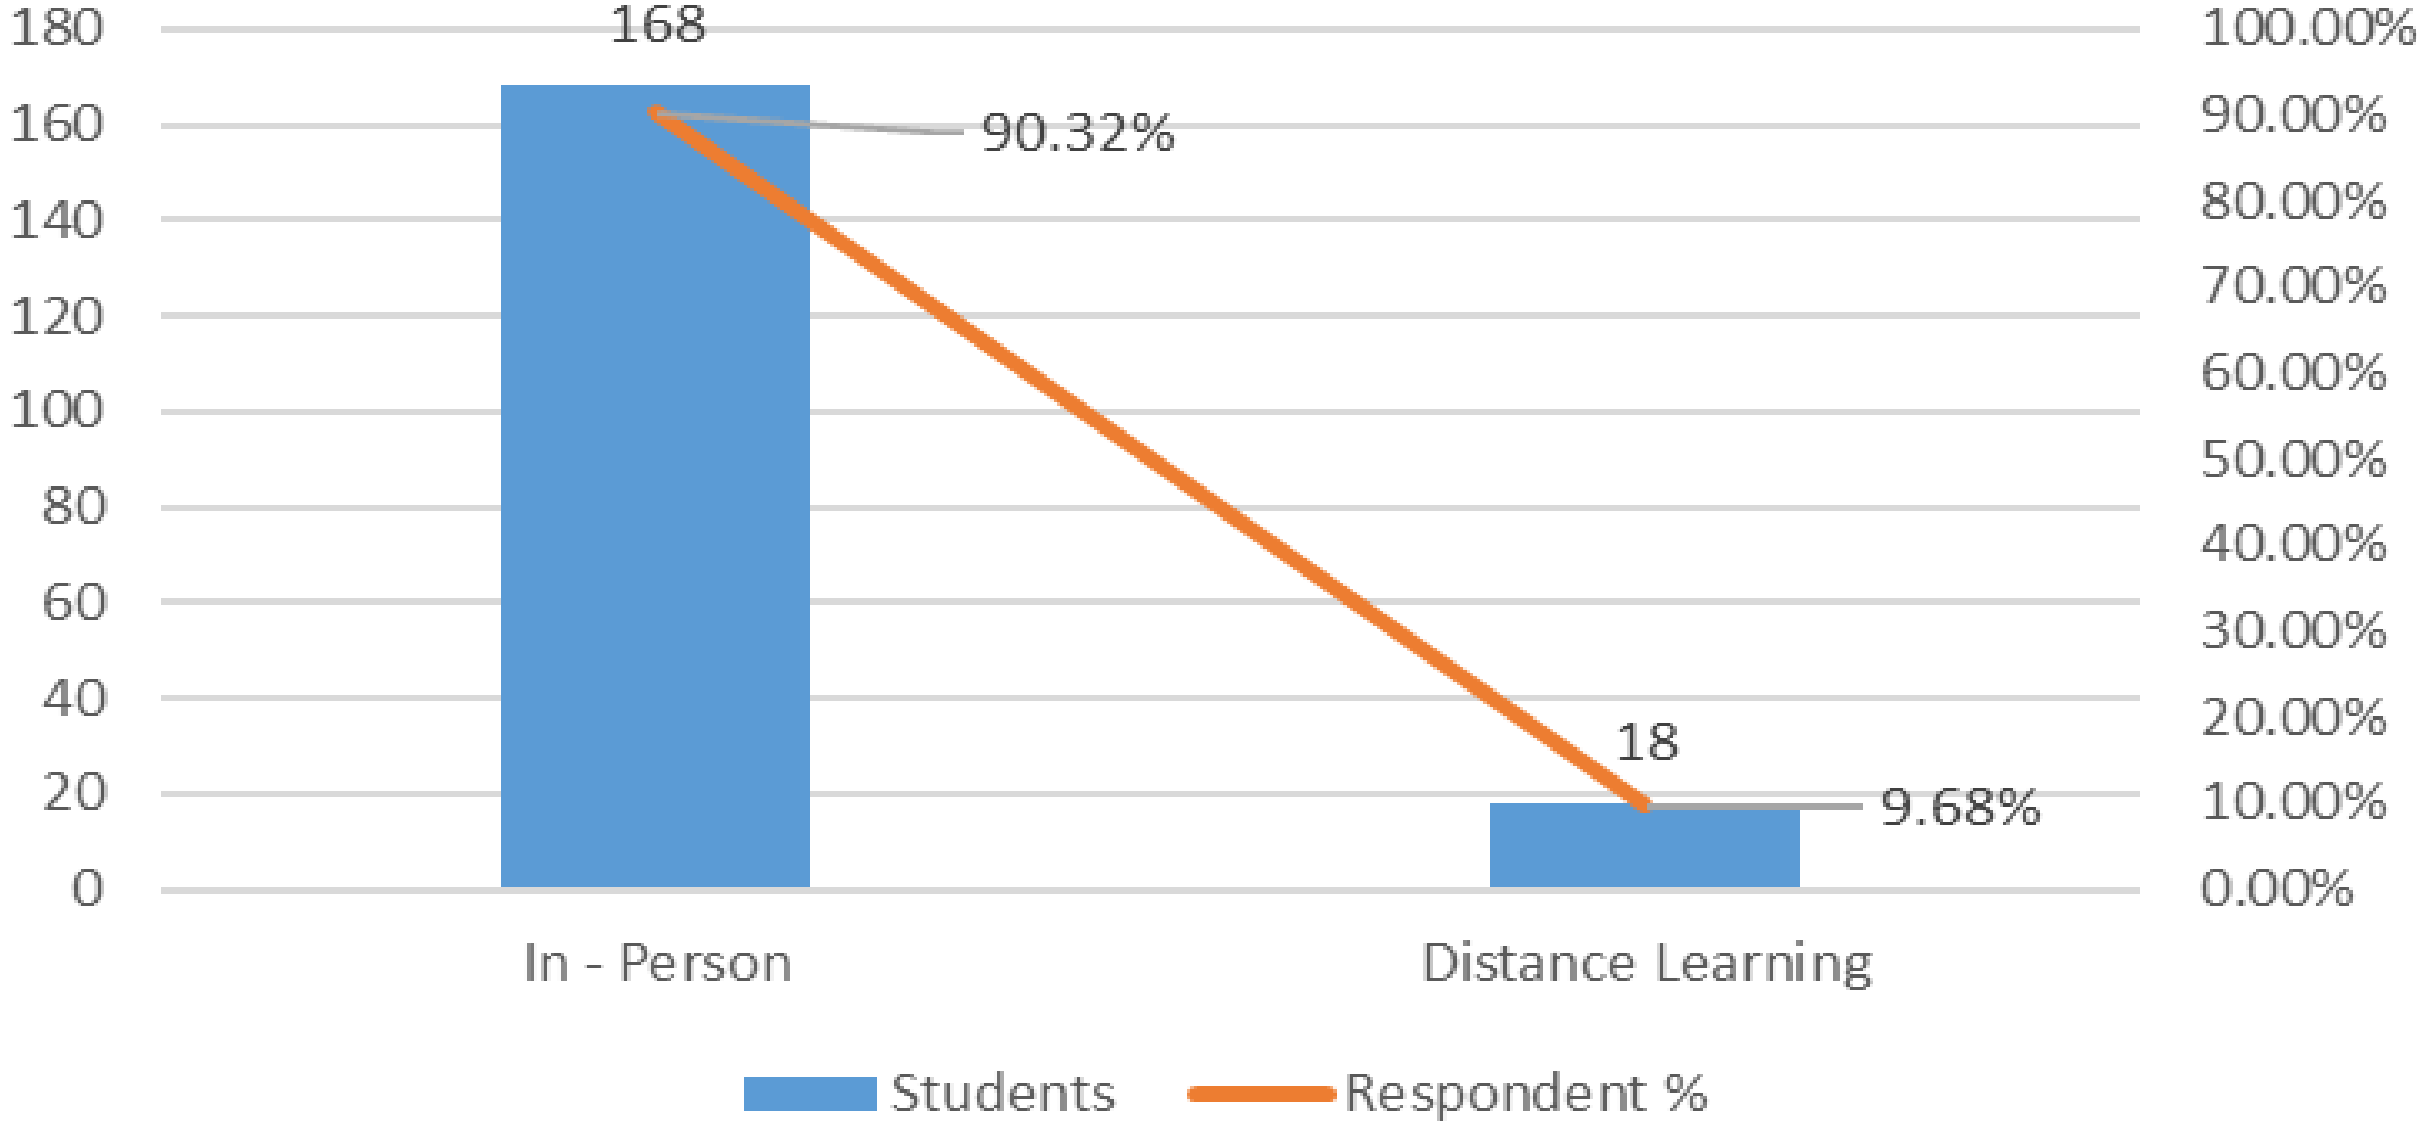

Survey Response

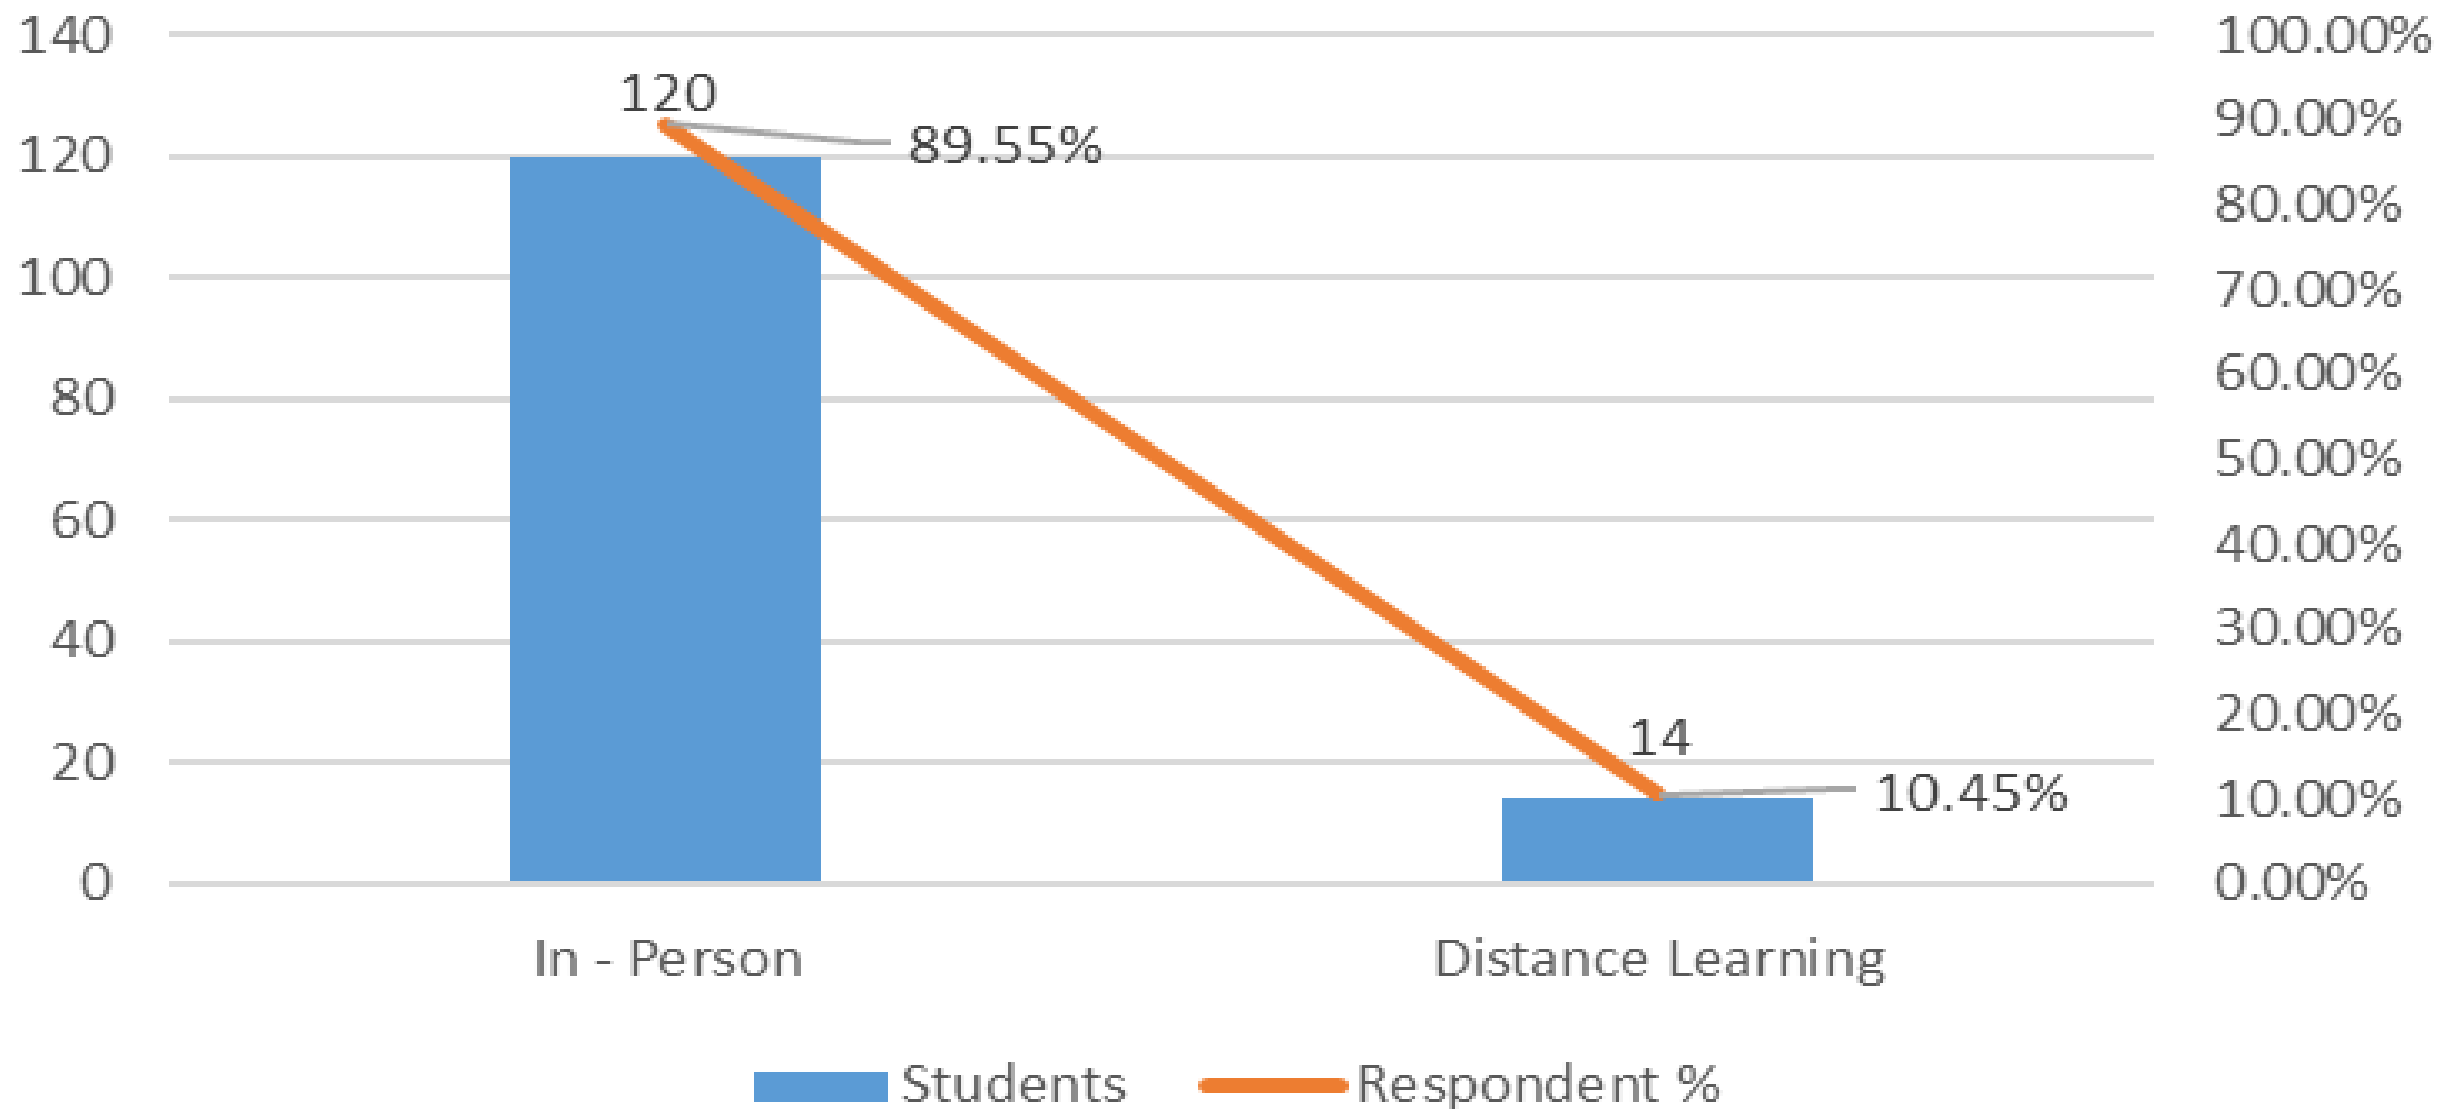

Instructional Preference

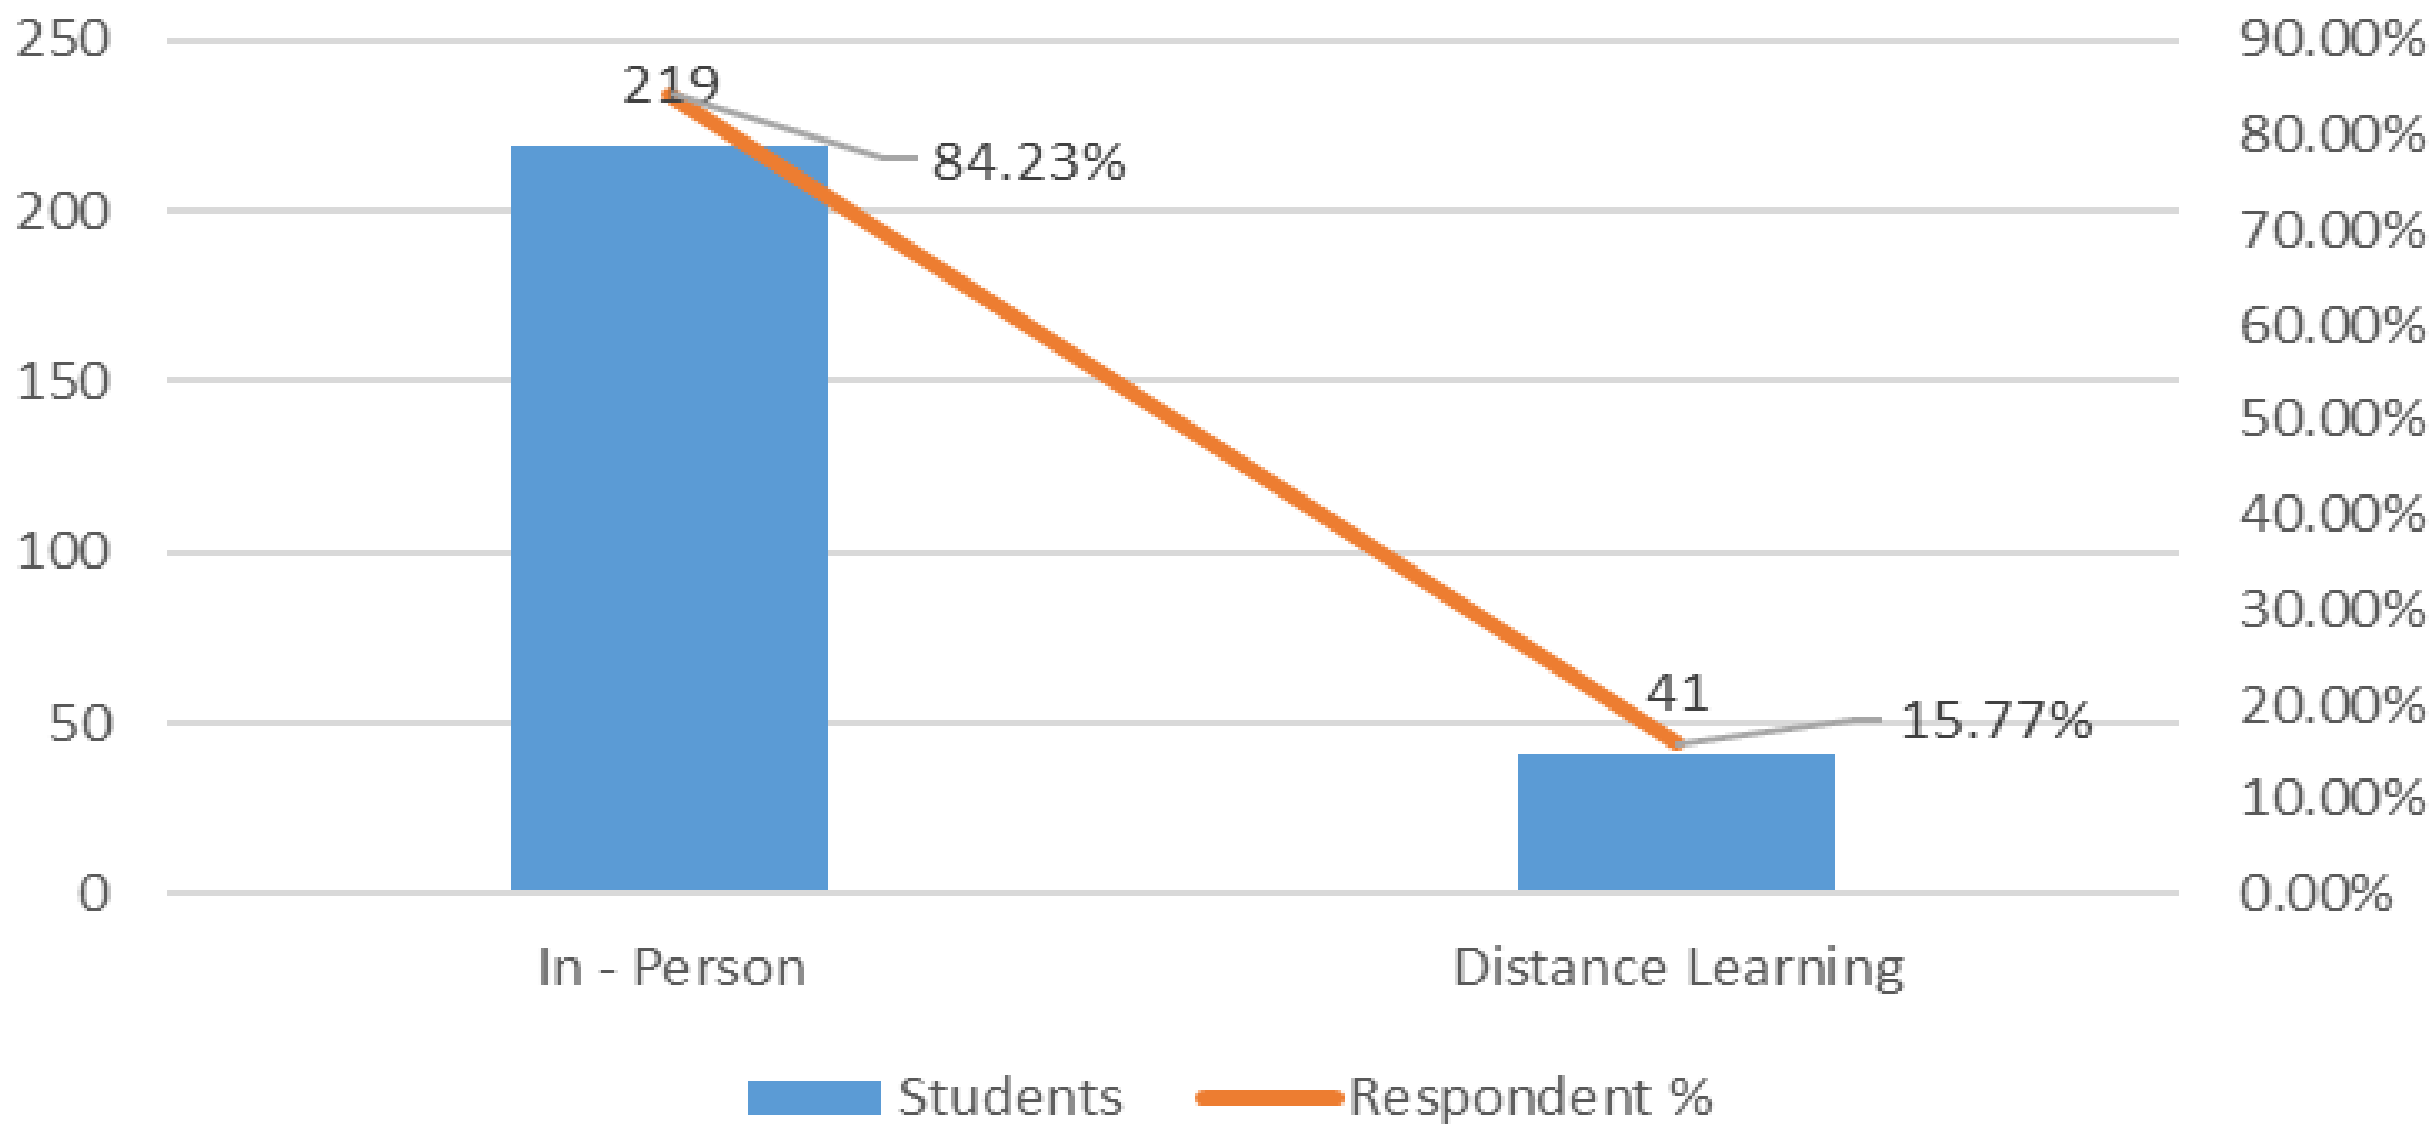

CHS Instructional Preference

CMS Instructional Preference

CES Instructional Preference

Summary

- 13% of our families have elected to utilize distance learning as we reenter our educational facilities.
- The number and percentage of families selecting distance learning are higher for the younger children – elementary ages.
- CCSC will move to identify additional resources – curriculum and staff alignment – to support the distance learning needs of our families.

Next Steps

- Building Leaders are working to finalize numbers
- Distance Learning curriculum and processes have been identified and will be communicated to families electing to utilize distance learning as their instructional preference.

Thank you parents and students for assisting us with the gathering of this information.

We appreciate YOU!
